Contingency Force

Training Program

I. TITLE: Task Force Operations Familiarization Training Program

II. OBJECTIVE:

While all members or alternates on the Contingency Force roster have had experience and training in their assigned positions many of them require a refresher course in their respective basic skills and practically all of them are in need of familiarization training in task force operations. Accordingly, it is the objective of this training program to provide both of the foregoing needs.

III. TIMING:

The need is now but, in order to provide adequate time for the preparation of this program and considering the related problems involved, the timing of this training should be resolved according to the most practicable period for all concerned. The PP/C/PMD will be available for consultation with OTR on this determination.

IV. FREQUENCY OF TRAINING:

It is desired that this program be placed on an annual basis.

V. LENGTH OF TRAINING PERIOD:

It is recognized that three (3) weeks is a short period to cover so much material. However, it is necessary to accept the fact that many of the individuals would have difficulty in leaving their current assignments for a longer period. Further, the need for economy makes it necessary to reduce the cost of this training to the minimum consistent with the merits of the objective.
